

Join Us in Prayer

Jesus said: "My house will be called a house of prayer." Our prayers are important to God and our church family. We ask God for His hand of Mercy on these we pray for together who are in need of prayer:

- *Please continue to pray for the progress of **Baby Brianna**. Her parents were told that they couldn't give them a day, but her last day will be soon. The leukemia cells in her body are at 80% and her overall health is declining rapidly. Her breathing (while on oxygen) is getting worse, she is taking up to 10 breaths a minute. She is very swollen, almost to the point of her eyes swelling shut from the build up of fluids in her body from her kidneys shutting down. I ask for prayers of comfort, healing, strength and for it to be God's will as heartbreaking as it is. She has touched so many people in her short little life. I pray for a miracle, but God knows what he is doing. (Amber B.)*
- *Please pray for my son, **Jacob C.** (age 7). He had a bad asthma attack earlier today and just recovered from bronchitis and early stage pneumonia. Please pray that God will heal my son, and help him to breathe normally again as he is the light of my life. Thank you. (Melinda C.)*
- *Please pray for **Erin P.** who is having to deal with a stalker again. This is the same troubled guy that she has had to deal with in the past, but this time she is also receiving texts from his friends and there are some threats involved. Erin lives in California and is the daughter of Patt and Pam P.*
- *Please pray for the **niece of Ms. Nancy** (a coworker of Kimberly T). She had a virus which put her in a coma. Tomorrow the family has decided to turn off the machines and see what happens. Lord, please give this family comfort and let your will be done. If it is your will to have this young lady home with you, please give Nancy the words and encouragement to be strong for her brother and his family. (Kimberly T.)*
- *Please pray for **Brad G's Grandfather** who is in the hospital with pneumonia and already has lots of heart issues. Please pray for his recovery and peace that only God can give for his family. (Angela G.)*
- *Please pray for the family of one of my favorite teachers, **Gerald T.** in Mitchell, IN. Mr. T died and leaves behind a wife, 3 sons and grandchildren. He was a great teacher, a great friend, and he introduced Kim and I way back in 1983. (Dave T.)*
- *Please pray for my uncle, **Buzz K,** who has prostate cancer. He found out this week that it has metastasized into bones and lungs. Please pray for his strength and healing. (Dave T)*
- *Please pray for **June B.** (Sondra H.'s Mom). She is still battling infection of her foot/leg and is now having reactions to antibiotics. Please pray that the new oral antibiotic works and that she will have clarity of mind and remember to eat and drink. Also that her immediate family that lives near her will step up and provide the help that she needs right now. (Sondra H.)*
- *Please pray for **Darlene G** (Aunt to Brian H.) She has been battling alzheimer's and has taken a turn for the worse. A call was received this morning that she is being moved to hospice and not expected to live much longer. Pray for comfort and strength for the family as the Lord prepares to bring her home. (Sondra H.)*
- *Please pray for **Tony D.** and his family as they mourn the loss of his mother Edna.*
- *Please pray for **Jen D's** family as they mourn the loss of her father.*
- *Please pray for our family friend **Judy W.** who is recovering from hospitalization. She is going through some physical therapy. Please pray for continued healing. (Emily R.)*
